6 Please calculate what the cost of making the s.p.t. arrangement ^{continue} without however appointing any new men. Is there margin for the extra exp^e in the est^d provision in the budget?

Wm

18/11-19.

7

The cost required, if the s.p.t. arrangement, continue without appointing new men, is shown in the statement contained in the Govt File no 69-8 herewith. It shows that the extra expenditure may be met out of the provision made in the budget for 1919-20.

H.S.

21-11-19.

Serial
No.

The Director recommends that Mr. A. M. Sen may be made Senior Geologist S.P.T. & Messrs B. V. Venkataramania & B. Balaji Rao, Assistant Geologists S.P.T.

The difference between the present salary and that now proposed is shown below.

	Offg Sr Geologist	Sr Geol S.P.T.	Difference (extra)
Mr. A. M. Sen	Rs 450 + 50 A.A.	Rs. 500	
Mr B. V. Venkataramania.	Offg Asst Geol Rs 175 + 60 A.A.	Asst Geol S.P.T. 300	65
Mr. B. Balaji Rao.	Rs 175 + 60 A.A.	300	65
	235		

The extra cost required viz Rs 130 may be met of the probable savings of Rs 248 p.m. shown in the statement referred to above. The Financial Controller also may be consulted if approved.

It is also requested on the recommendation to grant advance increments to Messrs R. Boag & B. Ramesh Rao and Mr. Varadachari.

Atg.
24-11-19. (12) Messrs. Sen, Balaji Rao & Venkataramania may all be made Sub Probem. The extra cost will be Rs 130 p.m and may be met from the provision in the Budget.

(13) There is no money in the budget for entertaining more men in the Sub Asst Geologists grade against the vacancies of the last two Officers.

(14) The proposal to grant

Serial
No.

advance increments to Messrs Boquet and Rama Rao is for ever. It seems unnecessary to consider the question now so soon after the reorganisation order has issued.

Me
29.11.19

Ch Seef)

(15) The appointments of Messrs Sen, Balaji Rao & Venkataswamy may be made sub.protem instead of acting.

(16) The appointment of more sub-assistants should wait until next year as there are no funds in the budget of this year.

(17) I believe one of the assistants has been taken for work on the Dranscheme & if so his place may be filled either by an assistant or a qualified man as an assistant or by an addl assistant in the grade of sub-assistant.

(18) Perhaps it would be desirable to take on a probationer so that he may be trained to take a sub-assistant's place next year or so.

(19) The other recommendations & suggestions in regard to advance increments do not seem acceptable.

Serial
No.3855.303
12.12.19

²⁰
Messrs Sen, Balaji Rao &
Kerketramaiya may be made
S.p.t. instead of acting. This, I think,
is as ^{much} logical as one.

²¹
There is a proposal to take Mr. T. G. Bani
on to the Geological Department in case
Mr. Sampath Nungai's services are transferred
to the University. I presume ^{when his letter is} that ~~the~~ will
mean the filling up of an Asst. Geologist
place on probation against the vacancies
causes.

²²
I am in favour of a prob. benighted
on against one of the vacancies in the Asst.
or the Sub. Asst. Geologist grade as suggested
by the Ch. Secy.

²³
Both Dr. Smeeth & Mr. Jayaram have
spoken to me in the matter & I support
their recommendation on behalf of Mr. B. Ramakrishna.
In their opinion he is out & out the best
among the Sub. Asst. Geologists.

²⁴
The recommendation made on behalf of
Mr. Bocquet may also be accepted.
²⁵
As regards Mr. Kanadasa, an advance
increment may be given if funds are
available.

34
The tendency to give advance increments
has to be effectively checked. It is against
the principle of progressive pay scale and if
permitted will lead to claims for enhancing
the pay of appointments as the max^m is
reached earlier and the incumbents
imagine that it is a hardship to
keep on on the same rate of pay for
a long time. The proposal to give
such increments has therefore to
be opposed financially. If an officer is
more deserving than others it is a far
better arrangement in the interests
of the individual as well as of the
dept to prefer him for promotion

DEWAN'S OFFICE.

to a higher ^{post} than to give him one or two increments in his own grade.

Interests of efficiency are promoted by selecting men for advancement and not by increasing the cost of service by upsetting the calculation of cost of appointments made, when revision of scales of pay are considered & sanctioned.

35 If any of the vacancies admit of suitable arrangements there is no financial objection to alter the tenure of the officers concerned from say 5 to 10 years.

36 The need for keeping down the cost of establishments, especially of the higher service is very great and as with the increased cost of living the necessity for raising the pay of the lower paid menials & clerks of most departments is most pressing -

Y

H

46 With reference to the questions outstanding in the re-organization of the Geological and Mining Departments (Geol. file No. 69 of 1918-19 and Geol. 60 of 1919-20) it appeared to me, on perusal of the notes that the main points involved have not been clearly brought out and I therefore decided to meet Dr. Smeeth and Mr. Jayaram after getting a statement of the sanctioned cadre and the names of officers occupying them or proposed to be appointed to the existing vacancies. This statement is in the file. My notes of discussion with the two officers are also in the file.

47 There is no question of making any changes in the re-organization of the Geological Department which has already been sanctioned by Government. As Dr. Smeeth is not likely to return as Director, His Highness has already ordered that Mr. Jayaram should be sub pro tem. My proposal is that Dr. Smeeth should be seconded and Mr. Jayaram should be Director of Geology in the existing scale. For the present, there is no need to change the grade fixed for this officer although it has been brought to my notice that the Director's pay should be fixed at Rs. 1,200 to Rs. 1,400, the maximum pay of other Heads of Departments. I am, however, inclined to recommend that Mr. Jayaram may be given the maximum of his grade. My reasons are -

A

1. He has already done the work of the Head of the Department for more than 2 years;

NOTE—Contn. sheet.

Serial
No.

2. He has put in over 25 years' service.

3. The Dy. Director's place is now vacant and there will be considerable savings if that appointment is not filled up. Besides, owing to the gap thus caused in the organization, the Director will have to attend personally to a good deal of the routine work of the Department which would otherwise be done by his Deputy. It therefore stands to reason that now there is no suitable officer in the Department to be promoted as Deputy Director, the responsibility of that officer must necessarily fall on the Director himself.

48 No appointment need be made against the ~~post~~ post of Dy. Director which should remain vacant.

49 Mr. Sen is not considered, at least for the present, to be fit to be promoted as such, Mr. Sampatiengar having been permanently transferred to the University.

50 It is agreed that the Senior Geologist's place must be given permanently to Mr. Sen.

51 As regards the two Assistant Geologists, the vacancies should go to Mr. Venkataramaiya and Mr. Balagi Rao. Mr. Venkataramaiya should be seconded in connection with the Iron Scheme and in his place, Mr. B. Rama Rao should be put in sub pro tem.

G. R. S. 12]

General and Revenue
Secretariat.

Geol File No. 69

of 1918-19

Serial
No.

52

As against the five Sub Assistant Geologists, the appointments should go as follows:-

1. Mr. T. P. Kailasam.

2. Mr. B. T. Venugopaul.

3. Mr. V. G. Dani, on probation for 2 years.

There will, thus, be two vacancies in the Sub-Assistant Geologists' grade under the sanctioned scale. Applications should be invited in accordance with the draft order already approved, from candidates for appointments as Geological Probationers and two may be selected to fill in these vacancies.

53

There are two places of probationers sanctioned in the cadre and the question is whether these also should be filled up now. As the Department is short-handed, I think these should also be filled up so that there may be a sufficient number of men available for future work and the probationers may at once be drafted so that they can get the requisite training.

54

In the Department of Mines, it is necessary to appoint forthwith two Probationers. The Junior Inspector's place still remains vacant and the ~~post of~~ Assistant Inspector of Explosives has not yet been appointed. So altogether, 6 probationers will have to be found to complete the organization of these two Departments.

55

A note handed over to me by Dr. Smeeth at the time of the interview is placed in the file.

G. R. S. 12]

General and Revenue
Secretariat.

Gul File No. 69

of 1918-19

Serial
No.

56
During the discussion a question arose as to the burden which the Geological Department has now to bear on account of the one-third salary of Dr. Smeeth. As Dr. Smeeth is now devoting practically all his time to the Iron Scheme, it is a question whether the proportion fixed in the previous Govt. order should remain unaltered. I consider that the Department may be relieved of at least a part of the charges now debited on account of Dr. Smeeth's salary, etc., so that the establishment charges sanctioned under the re-organization may not be exceeded. In this connection, however, Dr. Smeeth has sent me a demi-official letter after the discussions, which may also be perused. This is however of not so great an importance as it involves merely a question of paper adjustment.

Final Note by the First Member of Council.

Subject:— Promotions, etc., to certain officers of the Geological and Mines Departments in connection with the recent re-organization of those Departments.

The Director, Department of Geology, submitted in October 1919 in consultation with Dr. Smeeth the following recommendations regarding promotions, etc., to be given to certain officers of the Geological and Mines Departments in connection with the re-organization of those Departments sanctioned ~~unanimously~~ by His Highness the Maharaja in August 1919:—

1. Messrs: Venkataramaiah and Balaji Rao, Offg. Assistant Geologists, to be confirmed as Assistant Geologists with effect from 1st July 1919 or appointed Assistant Geologists sub pro tem from the same date in case there was any technical objection to the first arrangement.
2. Mr. Sen, Offg. Senior Geologist to be appointed Senior Geologist sub pro tem.
3. Mr. P. Rama Rao, Sub Assistant Geologist, to be given an advance increment to Rs.150 in his grade of Rs.125-25/2-250 with effect from 1st July 1919.
4. Mr. M. Varadaiya, Office Assistant to the Director of Geology, to be granted Rs.200, the maximum pay of his grade, viz., Rs.150-10-200 with effect from 1st July 1919.
5. Mr. Bocquet, Chief Inspector of Mines to be started on Rs.1,150 plus local allowance of Rs.200 in the grade of Rs.1,000-50-1,200 from 1st July 1919.
6. The pay of the Heads of Geological and Mines Departments to be raised ~~from~~ Rs.1,200 to Rs.1,400 as in the case

U
& its enclosure

Z

9

of the Heads of other Departments such as Agriculture, Industries and Commerce, etc.

Para 13 to 26
of notes

2. Mr. P. Raghavendra Rao who was the Member in charge of these Departments at the time, expressed himself as being generally in favour of all the above recommendations.

Para 34-36
of notes

3. The Financial Secretary who was consulted in the matter was of the opinion that in the case of vacancies which admitted of sub pro tem arrangements, the tenure might be altered from acting to sub pro tem, but opposed strongly to the grant of advance increments, as they are financially objectionable.

Para 44 of
notes

4. When the papers came up before me, I recorded the opinion that, if sub pro tem appointments were due, they might be ordered at once. I also had a thorough discussion of all the points at issue with Dr. Smeeth and Mr. Jayaram. The conclusions arrived at are recorded in my minutes at paragraphs 46 to 56 in the file. These relate to the Geological Department and the question of appointing Protationers which is under separate consideration.

Page 16 of Office Notes

5. The whole question was considered in Council at its meeting held on the 29th June 1920 and the following resolution was passed in respect of the various questions under consideration:-

Dr. Smeeth may be seconded in the Geological Department and his place filled up provisionally permanently.

Mr. Jayaram may be allowed to draw the maximum salary of Rs. 1,200 from 1st July, 1920.

The place of Deputy Director need not be filled.

Mr. Sen may be made Senior Geologist vice Mr. Sampatiengar & appointed Professor of Geology.

Mr. Venkataramaiya and Mr. Balaji Rao may be appointed.

Assistant Geologists and during Mr. Venkataramaiya's employment in the Iron Scheme, Mr. B. Rama Rao may be

Assistant Zoologist sub pro tem.

Separate action is being taken in regard to selecting Probationers.

Para 63 of
notes

6. When the file was referred to the Financial Secretary for concurrence or remarks if any, that officer invited reference to his note dated 23rd January 1920 in which he had strongly opposed the grant of advance increments as they were financially objectionable.

Pages 11 to 14 of
Office Notes

7. With reference to the above objection, it may be stated that advance increments have been granted only in a single case, namely, that of Mr. Jayaran. As I have pointed out in my minute dated 2nd April 1920, the following among other grounds, fully justify the exceptional treatment proposed to be accorded to this officer:-

(1) He has already done the work of the Head of the Department for more than two years.

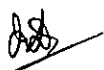

(2) He has put in over 25 years' service.

(3) The Dy. Director's place is now vacant and there will be considerable savings if that appointment is not filled up. Besides, owing to the gap thus caused in the organization, the Director will have to attend personally to a good deal of the routine work of the Department which would otherwise be done by his Deputy. It therefore stands to reason now that there is no suitable officer in the Department to be promoted as Dy. Director, the responsibility of that officer must necessarily fall on the Director himself.

In these circumstances, I solicit His Highness' gracious approval to the resolution of the Council.

 No. 282-19 Date 31/7/20

Notifies the above appointments.

25

The whole question of the staff of the Geological Department is rather involved. There are many acting arrangements and several vacancies and this state of affairs will be accentuated by the transfer of Mr. Sampat Iyengar to the College in June and the transfer of Mr. Venkatramayya to the Iron Scheme. In order to clear the air I have prepared the attached list showing (1) The sanctioned staff of Geological Officers and of the Mining and Explosives Department (2) the present permanent incumbents (disregarding acting arrangements) and (3) the arrangements I propose for the immediate future.

With regard to these arrangements I offer the following remarks:--

DIRECTOR. As I have now been designated Director of Mines and Geology - which may be regarded as a special temporary appointment - I do not see why Mr. Jayaram should not be designated Director, Geological Department, and the words sub-pro-tem omitted. The post is vacant and Mr. Jayaram may be confirmed therein.

DEPUTY DIRECTOR. Mr. Sampat Iyengar goes to the College in June and there is no one whom I can confidently recommend to fill his place. I am not prepared at present to recommend Mr. Sen for this post and any future recommendation will depend on the energy and progress which he may display.

I propose therefore that the post of Deputy
Director

Director be left vacant until we see whether any of our own officers show signs of qualifying for it.

I do not propose the entertainment of an outside European Officer for two reasons :-

- (1) because such appointment would block promotion for one of our own men who may turn out fit to take the post and
- (2) because there is little chance of obtaining a suitably qualified European officer. The pay is not sufficiently attractive and the Geological Survey of India - which offers much higher rates of pay than we do - is present unable to secure men to fill up vacancies in its staff.

SENIOR GEOLOGIST. Mr. Sen to be confirmed in this post. This will give him a promotion and afford him an opportunity to show what he is made of.

ASSISTANT GEOLOGISTS. Consequent on the above arrangement the two Assistant Geologists posts will be vacant and can be given to Messrs. Balaji Rao & Venkatramayya, whom I have all along recommended for this grade. Mr. Venkatramayya will be transferred to the Iron Scheme and seconded in the Department and his place may be taken by Mr. Rama Rao as Officiating Assistant. Mr. Rama Rao is the most promising of the junior officers and should be given

given this chance.

SUB ASSISTANTS &)
PROBATIONERS.)

Mr. Dani has now been appointed on probation for 2 years.

Messrs. Venu-Gopal and Kailasam will continue making 3 out of the 5 sanctioned. There are two posts vacant for which men are required and two probationers may be selected with a view to filling these gaps as well as 2 probationers provided for in the sanctioned scale to meet future requirements.

Four probationers therefore have to be selected all of whom will be in the running for the vacant posts or others which may become vacant later on.

This is the main point dealt with in the notes sent to me and I hope I have made it clear that we require 4 probationers for the Geological staff to be put under training for present and prospective vacancies.

MINES AND EXPLOSIVES. The requirements are very clear and simple.

We want 1 probationer to train for the vacant post of Junior Inspector of Mines and 1 probationer to train for the vacant post of Assistant Inspector of Explosives.

Geol

60

9-20.

This means 2 more probationers making a total of 6 to be selected and taken on if we can find suitable men.

In connection with these proposals I beg to call attention to my note on the Reorganization of the Department dated 10th October 1919. This was forwarded to the Chief Secretary by the Director, Geological Department, with his No.1061 dated 18-10-19 and contains certain proposals not yet disposed of regarding the pay of officers. I asked for a reconsideration of the pay given to the Heads of the Departments of Geology and Mines and urged that it should be increased to Rs.1200-50-1400 as was originally agreed upon and trust this will now be favourably considered. A pay of Rs.1000--1200 is not, in my opinion, a suitable remuneration for the Head of either of these Departments and will not permit of the Officer maintaining his proper status. Further, it automatically reduces his halting allowances from Rs.7/6 to Rs.5/- a sum which at the present time is very inadequate. The increments will not increase the budget allotment owing to the Deputy Director's post being left vacant and by the time that comes to be filled, I shall have retired.

The other request I made was for some consideration to be shown to the Office Assistant to the Director. His work is undoubtedly arduous and responsible

29

responsible and a great deal of responsible work must be entrusted to him if the Director is to have any time free for Technical work. I have asked that he should be given the maximum pay of the post sanctioned (viz., Rs.200/-) but I think it only fair to say that I do not consider that the sanctioned post gives him either encouragement or sufficient remuneration and it leaves him entirely without prospects after 23 years of service. May I request Government to reconsider this matter and make the post Rs.200 to 300 which, certainly, is more than justified by the heavy and responsible work.

I trust that all these matters will be disposed of once for all, together with the reorganization of the Clerical and Menial staff. The Department has been under reorganization practically since 1914 and during all this time we have not had a satisfactory organization, staff or equipment and progress has been correspondingly unsatisfactory.

NO. 382 of file.

Forwarded with compliments
to The Chief Secretary.

NO. 383

Copy to Mr. Jayaram for information.

MINOR DEPT.
20 OCT 1919
Sir,

C.S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of
H.H. the Maharaja of Mysore, Bangalore.

Adverting to Government Order No.G.7041-71-100/Geol.
69-18-11, dated 18th September 1919, I have the honor to for-
ward herewith, for favour of early orders of Government, a
Note by Dr. W.F. Smeeth on certain matters relating to the
re-organization of this Department. I quite concur with
Dr. Smeeth in his views and recommendations, ~~made by him~~, and I
beg that his proposals, which have been made after a close and
careful study of the circumstances and needs of the Department,
may kindly be sanctioned by Government.

I have the honor to be,

Sir,

Your most obedient servant,

B. Jayaram,
Director,

Mysore Geological Department.

32 ✓

Note on the Reorganization of the Geological Department.

The recent Government Order about the re-organization of the Geological Department not only lays down the grading of the staff but gives the allocation of existing officers to the new grades. This allocation is not quite satisfactory and raises certain difficulties. The chief difficulty lies in the appointment of Messrs. Venkataramaiya and Balaji Rao to officiate as Assistant Geologists. It would be very unfair to these officers who have been so many years in the Department, and who have done good work, to be kept for an indefinite period in officiating posts. They are fully entitled to be made Assistant Geologists now and that is the arrangement which I have proposed all along and which has been accepted hitherto. Originally I proposed a scale of 3 Assistant Geologists but the number was reduced to 2. I then proposed that Mr. Sen should be made Senior Geologist sub-pro-tem so that the two posts of Assistant Geologists could be given to Messrs. Venkataramaiya and Balaji Rao. This has not been done and a further difficulty arises.

If these 2 officers are to remain Sub Assistants and merely officiate as Assistants then all of the 5 posts of Sub Assistant grade, which the order provides for, are already filled and we are unable to take on any new men. The taking on of new men as Sub Assistants was one of the objects of the re-organization and the present order defeats this.

I think the difficulty only requires to be pointed out to be remedied. I would suggest that Mr. Sen be regarded as an extra Assistant Geologist for the time being and that he should be Senior Geologist sub-pro-tem.

Messrs. Venkataramaiya and Balaji Rao can then be made Assistant Geologists to which promotion they are fully entitled by

good

good work and by the fact that they have been Sub Assistants and Probationers for far longer than the time scale now provides for and which is, in my opinion, already too long and likely to discourage good men from joining.

Wojan
If there is any technical objection to this arrangement I propose, as an alternative, that Messrs. Venkataramaiya and Balaji Rao be made Assistant Geologists sub-pro-tem. This will give them their expected promotion and will enable us to take on 2 new Sub Assistants who are urgently required.

The Sub Assistants have expressed great disappointment at the slowness of promotion provided for them and I share their disappointment. It may not be possible to re-open the question now but, as I have frequently urged, promotion should be a matter of merit rather than on mere lapse of time. In other words it should be recognised that promotion may be deferred if an officer is not keen and energetic while, on the other hand, it should be possible to give a man an extra step in his grade as a recognition of ability and good work. This would minimize the deterrent effect of the slow scale and encourage better men to come forward.

In this connection, I would ask that Mr. B. Rama Rao, who has shown much more energy and initiative than the other Sub Assistants may be accorded an extra step in recognition thereof.

125 - 25 - 250
I propose that he be given a step to Rs.150/- with effect from the 1st July 1919.

150 - 10 - 200
With regard to the Office Assistant - Mr. M. Varadaiya - I proposed that he should have a post of Rs.200 - 300, but only Rs.150 - 200 has been sanctioned. His duties and responsibilities have been increased, very materially, during recent years and he has done a lot of extra work in the preparation of bulletins, manuals and revision of Rules. He is already drawing Rs.150/- and the reorganization gives him practically nothing to look

look forward to. In consideration of these facts, I propose that he be given the maximum of the grade provided, i.e., to receive Rs.200/- from the 1st July 1919.

The only other officer whose pay requires a definite proposition is Mr. R. Bocquet. While officiating for the past two years he was drawing Rs.1350/- (Pay Rs.1100/-, Acting allowance Rs.100/-, Local allowance Rs.150/-). I propose that he be permitted to start on the same total from 1st July 1919, viz., - Pay Rs.1150/-, Local allowance Rs.200/-.

672
1000 - 50 - 1200
+ 20.

Before closing I would like, once more, to express my disappointment with the position and emoluments granted to the Heads of Geological and Mines Departments in comparison with other Departments - such as Agriculture, Industries & Commerce, &c., which are of much more recent origin and in which the Head rises to a pay of not less than Rs.1400. Mr. Banerji firmly promised that he would give the Heads 1200 to 1400 and recognised that we cannot expect to attract good men by giving low pay. It also seriously affects their position and precedence and I am unable to understand why the Heads of the Geological and Mines Departments have been placed in Class II in the Precedence List. These Departments cannot be considered as Minor Departments and the work which has already been done has obtained considerable recognition and eulogy in scientific and technical circles not only in India but in other parts of the world where the value of such work is appreciated. It would not be encouraging to find that Mysore is the only place where our work has not been recognized or appreciated.

10th October 1919.

Forwarded to B. Jayaram, Esq., F.G.S., Director sub-pro-tem, for favour of transmission to Government with his own observations.

CB 282-6-3

CB 960

DEPARTMENT OF MINES AND GEOLOGY,
MYSORE STATE.

Agri. Camp, Bangalore, 13.3.1920.

Dear Sir,

In reply to your confidential and urgent D.O. No. 1277/C.B., dated 10th March 1920, which was delivered on my arrival here yesterday evening, I wish to state as follows :-

The question raised "whether Mr. Venkatarakaiya or Mr. Balaji Rao should be recommended for a permanent vacancy in the grade of the Assistant Geologists" is somewhat difficult to solve.

Some years ago when the first opportunity arose for recommending one of these officers for officiating in the then vacant Assistant Geologist's grade, Dr. Smeeth recommended Mr. Venkataramaiya, but with a qualifying note that the next chance should fall to Mr. Balaji Rao and that they should take by turns. So far, we have acted on this principle and each has had his own turn of officiating appointment recommended and sanctioned by Government.

Following the same principle it behoves me to recommend Mr. Venkataramaiya for the first chance that has presented itself in the permanent vacancy in the grade of the Assistant Geologists, unless at this stage I can conscientiously convince the Government that the work turned out by Mr. Balaji Rao in later years has shown him to be decidedly superior to Mr. Venkataramaiya, which I have no reason to say.

Mr. Venkataramaiya has had strenuous times in carrying out prospecting work on the iron ores of Kemmangundi. He is older in age and has put in more Government service than Mr. Balaji Rao. In addition he stands a chance of being permanently drafted on to the Iron-Works. So his claims appear

to me stronger.

But before I recommend such a course of action which would naturally cause Mr. Balaji Rao disappointment and dissatisfaction, I wish to point out that there seems to be no necessity for making such a distinction and that --- the proposals contained in my letter No. 1061, dated --- 18th October 1919, should be considered along with modified proposals which are under preparation and which will be submitted shortly.

In fact the recent transfer of Mr. Sampat Iyengar and the entertainment of a new man in the Sub-Assistant Geologists grade on a maximum pay of that grade necessitate for sending up fresh proposals, which may be kindly considered by Government --- once for all. ---

Yours sincerely,

B. Jayaram

C. S. Palasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore.

Bangalore

1st April 1920

Dear Mr. Banerji

During our conversation
this morning you suggested
making some alteration
in the distribution of my
pay between the Iron
Scheme, The Geological Dept
and Industries & Commerce.
The present arrangement

allots $\frac{1}{3}$ share to
each and I do not
think it is worth while
to alter this. It would
not be easy to say
what particular change
should be made and it
is chiefly a matter of
accounting.

It is true that for the
time being I am devoting

nearly the whole of my time
to the Iron Scheme except
for a number of files on
forelogical matters which are
sent to me for opinion and
sundry discussion with
Mr. Jayaram on technical
matters.

But later on I may switch
over to forelogical work
or to other Industrial Schemes
which I have in view.
We must take an average
and I do not know that

We can lay down, in
advance, any better
distribution than what
has been arranged for.

I think the present arrangement
may be allowed to stand
in default of a more exact
basis for distribution.

Yours sincerely
